Dial One Advantage

- **Dial One** is based in Cincinnati and has been installing and servicing alarm systems since 1979.
- **Dial One** services, monitors, and installs a variety of **Security, Fire, Access, and CCTV systems** for both residential and commercial customers.
- **Dial One** owns its own state of the art Central Station located in Cincinnati to monitor our customer's alarm systems. Our company is unique in offering a fixed rate monitoring service. Once we establish a customer at a monthly rate, our policy is to not raise that rate. We have had customers for over 10 years who have never had an increase in their monitoring fees.
- **Dial One** has never used a sub contractor to install or service its systems. We understand the importance of trustworthy employees, so all of our employees must pass a thorough background check. Also by using our own employees we have complete quality control.
- **Dial One** has technical and service personal on call 24 hours a day to handle any problems or question that may arise.
